### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance: Claims 1-20, as amended in the response filed 10 April 2007, are allowable over the prior art. As was noted in the applicants' arguments, the amended limitations in the claims of removing titanium dioxide from a reactor and cleaning a surface of the reactor other than a substrate teaches over the prior art. The closest prior art was that cited in the previous office action of Sandu et al. in view of Giolando.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
